
 TECHNICAL SHEET - R1 MAINTENANCE (Rooster Line)

English Version – For Web QR Use

Commercial Name:

R1 Maintenance (Rooster Line)

Ingredients:

Corn, sorghum, wheat, peas, lentils, sunflower, safflower, oats, ground cereals and/or cereal by-products and/or wheat bran and/or corn bran and/or DDGS and/or rice polish and/or soybean hulls and/or oilseed meals and/or dehydrated alfalfa and/or cane molasses and/or vegetable oil and/or soybean lecithin. **VITAMINS:** A, D3, E, K, thiamine, riboflavin, niacin, pantothenic acid, pyridoxine, B12, folic acid, biotin, and choline. **MINERALS:** Copper sulfate and/or copper hydroxychloride, ferrous sulfate and/or ferrous carbonate, oxide and/or sulfate and/or zinc hydroxychloride monohydrate, manganous oxide and/or manganese sulfate and/or manganese trihydroxychloride, calcium iodate and/or EDDI, sodium selenite and/or L-selenomethionine, dicalcium phosphate and/or rock phosphate, calcium carbonate, sodium chloride and/or sodium bicarbonate. **ADDITIVES:** Antioxidant, mycotoxin binder, fungicide, synthetic amino acids (lysine, methionine, threonine, tryptophan), inactive yeast cultures, probiotics, plant extracts and/or essential oils, synthetic pigments or colorants, calcium isotate, calcium butyrate, and fruit and/or herbal aroma.

Physical Characteristics:

Dry feed, multiparticle, with herbal scent.

Chemical Characteristics:

pH: 6.5
Density: 750 g/L

Packaging Sizes:

11.01 lb., 44.05 lb., and 55.06 lb. bags

Packaging Type:

Printed laminated raffia bag (polyethylene).

Shelf Life:

12 months from manufacturing date.

Dosage and Administration Route:

From 2.11 oz to 3.52 oz per bird/day, oral route.

Guaranteed Analysis:

Nutrient	Value
Moisture	12.0% max.
Protein	13.0% min.
Fat	2.0% min.
Fiber	8.0% max.
Ash	8.0% max.
NFE	57.0% by diff.
Calcium	0.80% min.
Phosphorus	0.55% min.

Administration Route:

Oral

Indications:

Complete feed for roosters. Use from 17 weeks of age up to two months before conditioning. Ideal for the maintenance or resting stage. Provide 2.11 oz to 3.52 oz per bird/day.

Warnings:

- Store in a cool, dry, clean place, free from pests.
- Keep on pallets 7.87 in. off the floor and 11.81 in. from the wall.
- Avoid direct sunlight.
- Do not use if the product changes color or appearance.

Consult your Veterinarian.

 **TECHNICAL SHEET – R2 PRE-COMBAT (Rooster Line)**

English Version – For Web QR Use

Commercial Name:

R2 Pre-Combat / Training (Rooster Line)

Ingredients:

Corn, sorghum, wheat, peas, lentils, sunflower, safflower, oats, field peas, popcorn corn, ground cereals and/or cereal by-products and/or wheat bran and/or corn bran and/or DDGS and/or rice polish and/or soybean hulls and/or oilseed meals and/or dehydrated alfalfa and/or cane molasses and/or vegetable oil and/or soybean lecithin. **VITAMINS:** A, D3, E, K, thiamine, riboflavin, niacin, pantothenic acid, pyridoxine, B12, folic acid, biotin, and choline. **MINERALS:** Copper sulfate and/or copper hydroxychloride, ferrous sulfate and/or ferrous carbonate, oxide and/or sulfate and/or zinc hydroxychloride monohydrate, manganous oxide and/or manganese sulfate and/or manganese trihydroxychloride, calcium iodate and/or EDDI, sodium selenite and/or L-selenomethionine, dicalcium phosphate and/or rock phosphate, calcium carbonate, sodium chloride and/or sodium bicarbonate. **ADDITIVES:** Antioxidant, mycotoxin binder, fungicide, synthetic amino acids (lysine, methionine, threonine, tryptophan), inactive yeast cultures, probiotics, plant extracts and/or essential oils, synthetic pigments or colorants, calcium isotate, calcium butyrate, and fruit and/or herbal aroma.

Physical Characteristics:

Dry feed, multiparticle, with herbal scent.

Chemical Characteristics:

pH: 6.5
Density: 750 g/L

Packaging Sizes:

11.01 lb., 44.05 lb., and 55.06 lb. bags

Packaging Type:

Printed laminated raffia bag (polyethylene).

Shelf Life:

12 months from manufacturing date.

Dosage and Administration Route:

From 2.82 oz to 3.88 oz per bird/day, oral route.

Guaranteed Analysis:

Nutrient	Value
Moisture	12.0% max.
Protein	15.0% min.
Fat	3.0% min.
Fiber	6.0% max.
Ash	8.0% max.
NFE	56.0% by diff.
Calcium	0.80% min.
Phosphorus	0.55% min.

Administration Route:

Oral

Indications:

Complete feed for roosters. Administer 30 to 40 days before the conditioning or training stage. Feed 2.82 oz to 3.88 oz per bird/day, depending on the bird's condition, weight, and structure.

Warnings:

- Store in a cool, dry, clean place, free from pests.
- Keep on pallets 7.87 in. off the floor and 11.81 in. from the wall.
- Avoid direct sunlight.
- Do not use if the product changes color or appearance.

Consult your Veterinarian.

 **POWERPACK® TECHNOLOGY**

 **Concentrated Postbiotics**

- Strengthen the immune system.
 - Improve gut health and nutrient absorption.
 - 👉 Stronger birds with better physical condition.
-

 **Prebiotics**

- Stabilize microbiota.
 - Support gut health without antibiotics.
 - 👉 Healthier birds, ready to perform.
-

 **Multi-Enzyme Complex**

- Releases more calories and nutrients.
 - Enhances digestion and muscle development.
 - 👉 Heavier birds with more usable mass and balanced performance.
-

 **Organic Chromium**

- Regulates stress and energy.
 - Supports recovery and physical condition.
 - 👉 Focused birds with greater stamina.
-

 **Organic Selenium**

- Antioxidant that protects organs and tissues.
- Improves oxygenation, fertility, and longevity.
 - 👉 Long-lasting rooster with strong breeding potential.

🌀 POWERPACK'S IMPACT DURING MOLTING

During molting:

- **Postbiotics:** strengthen immunity and digestion.
- **Prebiotics:** better intestinal microbiota, absorption, and stress management.
- **Enzymes:** greater muscle gain and performance.
- **Chromium:** improves focus, recovery, and lean development.
- **Selenium:** enhances immunity and feather quality.

👉 **Result:** Stronger, more resilient birds with shiny feathers and superior performance.
